Appendix II - Independence Criteria for the Board and the Board Committees

Independence of the Directors

The GSNC annually submits to the full Board a proposal concerning the determination of the independent status of all Directors. For purposes of such assessment, the GSNC considers all relevant facts and circumstances of which it is aware.

In order to be considered independent, a Director shall not have any material relationship with the Group other than his/her service as a Director.

I. Material Relationships

1. *A Director will not be considered independent if*

- the Director or his/her immediate Family Member owns more than 10% of the stock of the Company;
- the Director has received direct compensation (other than for former service as an interim Board Chair) of more than USD 120 000 p.a. (other than dividends or Board/Board Committee fees and retirement or deferred pay for prior service, provided such compensation is not contingent in any way on continued service) from the Group within the last three years;
- a Family Member has received direct compensation of more than USD 120 000 p.a. (other than compensation received for service as an employee other than an executive officer) from the Group within the last three years;
- the Director is, or has been within the last three years, an employee of the Group;
- a Family Member is, or has been within the last three years, an executive officer of the Group;
- the Director is a current partner or employee of the External Auditor of the Group;
- a Family Member is a partner of the External Auditor or is an employee of the External Auditor and works on the Group's audit;
- the Director or a Family Member is a former partner or employee of the External Auditor who personally worked on the Group's audit during the last three years;
- the Director or a Family Member is, or has been within the last three years, employed as an executive officer of an enterprise while any of the present Executives serves or has served on that enterprise's compensation committee;
- an enterprise has made payments to or received payments from the Group for goods, property or services in an amount that exceeds, in any of the last three fiscal years, the greater of USD 1 million or 2% of the enterprise's consolidated gross revenues, and
- the Director is a board member or employee of that enterprise or holds more than 10% of the shares in that enterprise; or
- a Family Member is a board member or executive officer or holds more than 10% of the shares in that enterprise.

2. *In addition to the independence criteria set forth above for all Directors in Section 1, an ACC Director will not be considered independent if*

- the ACC Director or his/her spouse, minor child, minor stepchild, or child or stepchild sharing the ACC Directors' home, accepts any salary or consulting, advisory or other compensatory fee (other than Board/Board Committee compensation) from the Group;

- the ACC Director is a partner, a member, an officer such as a managing director, executive officer or occupies a similar position in an enterprise that provides advisory services such as accounting, legal, investment banking or financial advisory services to the Group;
3. *In addition to the independence criteria set forth for all Directors in Section 1, above, when making its assessment as to the independent status of a CC Director, the GSNC considers whether the CC Director receives compensation from any person or entity that would impair his or her ability to make independent judgments about the Executive compensation.*

II. Immaterial Relationships

Unless the GSNC concludes in its assessment to the contrary, a relationship is presumed not to impair the independence of a Director if

- the Director or a Family Member received from the Group, during the last fiscal year, personal benefits (other than the coverage of travel expenses incurred by a Family Member in connection with meetings of the Board) having an aggregate value of less than USD 5 000;
- a Family Member is an employee but not an executive officer of the Group, unless the Family Member is an ACC Director's spouse, minor child, minor stepchild or child or stepchild sharing the ACC Director's home;
- the Director or a Family Member is a board member or executive officer of a non-profit organization and the Group's contributions to such organization did not exceed, in any of the last three fiscal years, the greater of USD 1 million or 2% of the organization's consolidated gross revenues;
- an enterprise in which the Director or a Family Member is a director, executive officer or employee has been indebted to the Group in connection with a transaction in the ordinary course of business or in an amount that did not exceed USD 100 000 during the last fiscal year;
- the Director or a Family Member serves on the board of another enterprise at which an Executive or another Director also serves as board member.

The enumeration of relationships mentioned in this Section II is merely exemplary. The fact that a particular relationship is not listed does not mean that the relationship affects the independence of a Director.

Appendix III – Diversity Criteria

The Board is dedicated to fostering an inclusive board where individuals from all genders and ethnic backgrounds can thrive and contribute their unique insights. A diverse board ensures that the appropriate balance of skills, expertise, experience, and cultural background is represented to discharge its responsibilities and to support long-term value creation for shareholders, patients, employees and other stakeholders.

Diversity remains a critical focus area for the Board, and the GSNC continuously examines opportunities to further increase the Board's diversity when identifying new Board member candidates. The GSNC considers the following diversity criteria in its selection process.

- Gender
- Age
- Nationality
- Ethnicity
- Viewpoints, professional background, and expertise

Regarding gender diversity, the Board pledges to sustain its efforts to achieve 50% representation of both genders in the composition of the Board, within a range of +/- 10 %.
